

erica eriksdotter

Born and raised in Sweden, I sold my first painting at the age of ten. I came to the U.S. in 2000 to study communications at George Mason University in Fairfax, Virginia and have since practiced public relations for large agencies and corporations while running my studio. I enjoy creating pieces that people find uplifting and receive nurturing joy from, and I'm honored when my customers say they have their own "Erikdotter" in their home. My art pieces are popular gifts, and I'm blessed to have customers all over the world.

My bridal bouquets have been mentioned in the Martha Stewart Weddings magazine, Washingtonian and in popular online blogs, such as Style Me Pretty. I have participated in top juried national art shows and have art displayed in some of my favorite shops and galleries across the U.S. Today, I do in-home and online art events throughout the year (see schedule online).

I live in Reston, Virginia with my husband, a photographer and interactive media designer, and our two cats, Lola and Rasmus, who spend time with me in the studio.

MODERN ART // PET PORTRAITS // BRIDAL BOUQUETS

Custom original paintings will either be square or rectangular.

BRIDAL

A unique and modern keepsake for generations to come. Beats dried flowers for sure! I paint the bridal bouquet from your photographs to create a very detailed portrait. Together, we'll work on the background color. Why not the wedding color?

PET

A perfect way to honor your pet! The background should highlight and complement the colors of your pet. I'll work with you on the colors of the piece and all sides will be painted.

MODERN

Each painting has a force of its own, and through this energy, I endeavor to make the world a better place. View my online portfolio to see works that are for sale. I welcome your inquiry about custom art pieces.
